“LS Mtron offers a very strong value proposition. We’ve always been happy with the machines’ performance and the company’s service. While our older machines still run great, our new LS Mtron all-electric machines provide much faster cycle times and better efficiency.”

Des Paden, President
Crestwood Industries

Built to last: Crestwood Industries still runs its 27 year old LG Goldstar machines every day, but is upgrading its IMM technology with new all-electric LS Mtron Injection Molding Machines
